Profile

CSE student and full-stack developer who builds responsive, user-friendly web apps with React, Next.js and TypeScript — including email, Google and GitHub sign-in with Better Auth and MongoDB-backed data. Strong problem-solving foundation from competitive programming in C and C++, and I share what I learn through a JavaScript Fundamentals series on LinkedIn.

Projects

Bazar-Dor — Grocery price web app

Oct 2026

Next.js · TypeScript · MongoDB · Better Auth · Tailwind CSS · DaisyUI

- Email/password plus Google and GitHub login; users and sessions stored in MongoDB.
- Protected profile page, category browsing and dynamic product detail pages.
